

## 62211 Car Parking Apps

Please state the names of all car parking apps that are in operation in your local authority to date (21/05/2026)

The Council offers the purchase of parking time through the RingGo cashless parking system.

Please state the date (DD/MM/YYYY) that each parking app was first used in your local authority

The Council does not hold the exact date that the app was first used, although we believe it was approximately 15 years ago.

For each of the parking apps that are currently in operation, please state the postcode of all the streets covered by the parking app

[RingGo's parking locator](#) shows all available locations across the UK and postcode data can be found by searching for each street on [Google Maps](#), [Royal Mail's Postcode Finder](#), or any other preferred system.
