<b>Service:</b> Roads General	<b>Subject:</b> Pavement: Damaged / Defective	<b>Classification:</b> Request for service	
<b>Desc.:</b> Multiple broken paving slabs and dip in pavement. It's gradually getting worse over time - its a continuous footway junction and needs to be reinforced so weight of cars don't break it up - no idea of this wasn't done properly, or if this particular junction just gets more traffic as others don't seem to be as bad.
