

62607

Please provide the current register of licensed Houses in Multiple Occupation (HMOs) held by your local authority.

The requested information is available as part of our HMO licence register published here: <https://www.edinburgh.gov.uk/downloads/download/13239/licensing-registers-civic>

An active HMO licence is one where the decision (column L) refers to the licence being granted, and the expiry date (O) is in the future.

Additionally, if a continuation (renewal) application is submitted before the expiry of an HMO licence, that licence remains in effect while the renewal application is being considered.

Please note we do not record information on the number of households within properties as part of the HMO licensing process. Maximum occupant capacity is recorded in column P of the register.
