

62705 Proposed Upgrade of Core Path (South Queensferry to Newbridge) – Exclusion of Equestrian Access

I request the following:

Confirmation that the path from South Queensferry to Newbridge is formally recognised as Core Path 36 and 37.

I can confirm that the relevant path between South Queensferry and Newbridge is recognised as a Core Path.

Copies of any consultation documents, public notices, or communications relating to this project.

Consultation has not yet been undertaken on this proposal but will take place before any decision to proceed.

Copies of any impact assessments carried out, including access, safety, and equality assessments.

Please find the latest version of the Integrated Impact Assessment attached. This has been updated to include consideration of equestrian users.

Third party personal information has been redacted from the document provided in compliance with the Data Protection Act 2018.

The legal and policy basis for excluding equestrian users from this path through surfacing changes.

Equestrian users will not be excluded from using the path.

Any mitigation or alternative provision for horse riders displaced by these works.

Mitigations are detailed in the Integrated Impact Assessment and will be considered as part of design development.
