Fairmilehead Park (DE0415), Colinton/Fairmilehead

Sgl/13.00 **Horse Chestnut ///****tester.these.cheek**
(031248)

4.2.2C Section Fell 1 tree

Small cavity formation from previous pruning wound on south aspect of main stem, approx 3m from ground level.

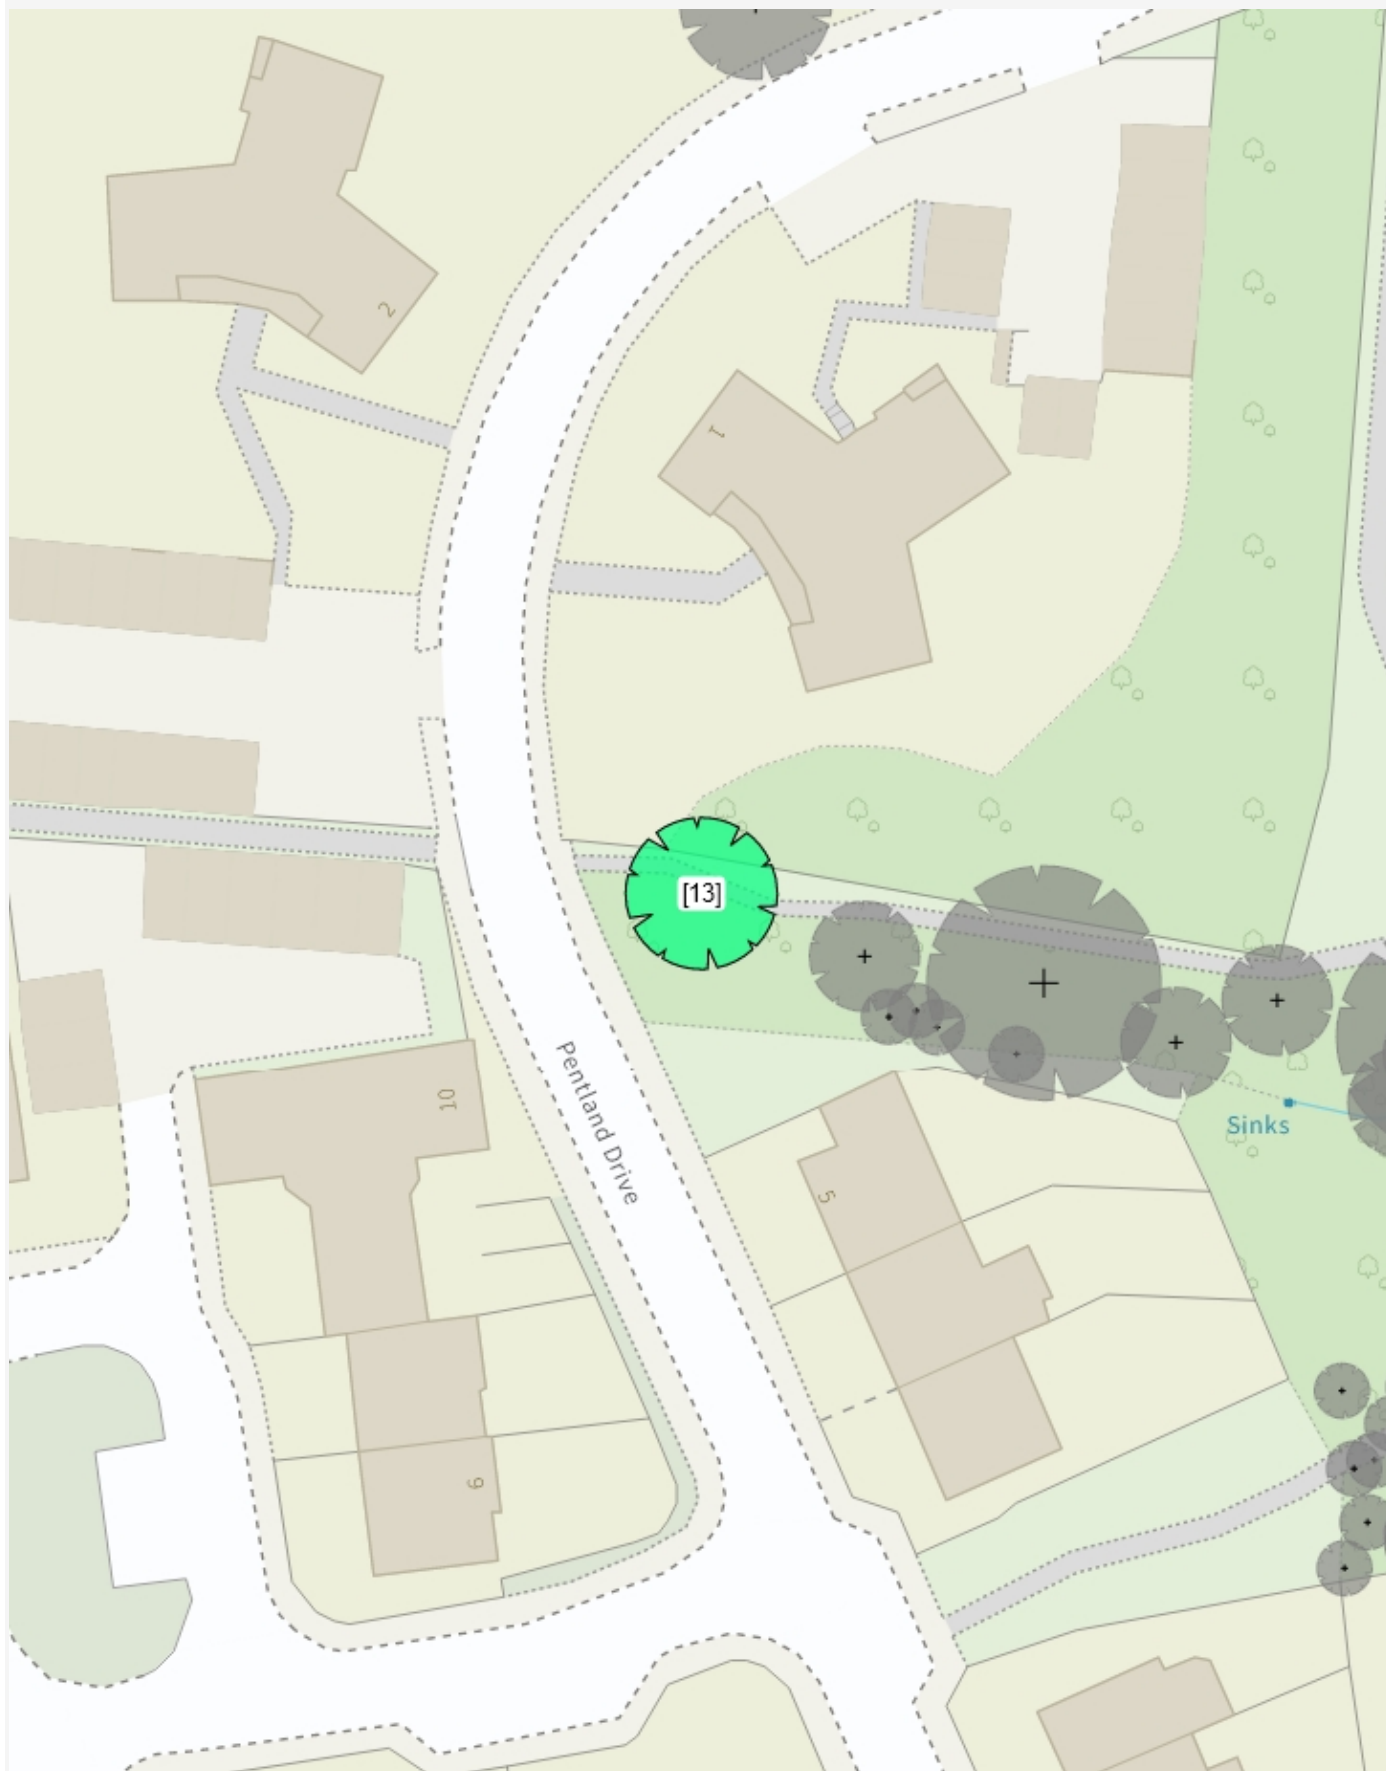

Investigation with podger showed decay not extend beyond surface of wound.

Cracked/lifting bark on tension side of large lateral, 3.5m from ground level, south aspect.

Small hollow at ground level, NW aspect, podger extends in 20cm from edge of buttress.

extensive decay on the south east side at ground level podger goes all the way in so 30cm plus. signs of honey fungus around the decaying areas and bleeding canker exudes up the trunk.

Fairmilehead Park (DE0415), Colinton/Fairmilehead
