

62764 Building Warrant Register Data

Please provide a copy of the City of Edinburgh building warrant register data for the period 1 January 2020 to the present date.

For each building warrant record, please provide any of the following fields that are routinely held and can be supplied without manual case-by-case review:

- Building warrant reference number
- Application/reference number
- Site address
- Proposal/description of works
- Date received / application date
- Date validated (if held)
- Decision date (if held)
- Current status
- Decision outcome (if held)
- Applicant name (if routinely published and releasable)
- Agent name (if routinely published and releasable)

If the full period would exceed cost limits, please provide the same information for the most recent three years instead. If a complete register extract is not available, please provide the closest equivalent export or report used internally to monitor building warrant applications and decisions.

There is no such register extract available and we hold no such monitoring reports.

The only method available of collating such data is a manual, case-by-case search of the Planning and Building Standards Portal.

The requested information is all held digitally and available to the public on our website at the following link:

<https://citydev-portal.edinburgh.gov.uk/idxpa-web/search.do?action=simple&searchType=ScottishBuildingWarrant>

The search can be carried out using the 'Weekly/Monthly Lists' tab or the 'Advanced' tab if searching by certain date ranges is required. Further guidance is provided below:
