Good afternoon Andrew, I am a planning officer and I am currently dealing with an application at Arthur Seat for 'Proposed placement of post and chain fencing, weighted mesh panels, and interpretation signs', Planning ref. 25/06329/FUL. The work affects the closed Radical Road public right of way and I was looking for some advice regarding this. I have received several neighbour objections regarding the closure of the road and the proposal. I would be grateful if I could discuss this application further with yourself. Let me know your available from next week and I can put a meeting in the diary. Thanks.

Hi Laura, happy to have a chat about it. I'm available any day aside from Tuesday next week. I'll have a look at the planning documents. As a starter, I've had some experience with Arthur's Seat before and their access rights are foggy because it is crown estate which is somehow exempt from access rights. I'll have a further look into it before next week so I can be of more help. I'd suggest Wednesday at 10am if that is suitable, or I am in waverly court on Thursday if you would prefer a face to face meeting.
Cheers
