

62951 Nutritional Values for School Meals

Does the Council provide the nutritional value for carbohydrates for each school meal for diabetic children in Primary school?

Does the Council provide the nutritional value for carbohydrates for each school meal for diabetic children in Secondary school?

[Nutritional information for primary school meals](#) is available on the council website. There is a special dietary form locally in schools that parents/carers must complete, and a meeting can be arranged with the catering team to support any specific individual menu requirements.

Nutritional information for secondary schools is attached.
