

63114

The full assessment records and scoring applied to N3-19 at the time of its original placement and at each subsequent review.

We do not hold this information. Bin hubs are installed following a review of feedback on proposed locations which are designed based on the siting framework (criteria) approved by Transport and Environment Committee. No scoring is applied and no assessment record is made for reviews of thousands of bin hub locations.

Any site visit notes, photographs or observations recorded during the review process.

We do not hold this information.

The comparative scoring or assessment records for nearby hubs that were approved for relocation, specifically those referenced (N3-01, N3-03, N3-06, N3-07, N3-24, N3-47, N3-53 and N3-54).

We do not hold this information. Bin hubs are installed following a review of feedback on proposed locations which are designed based on the siting framework (criteria) approved by Transport and Environment Committee. No scoring is applied and no assessment record is made for reviews of thousands of bin hub locations.

Any internal communications between officers discussing the location or review of N3-19.
