Desc.: Location: On Saturday at the 20th of March in the afternoon we were cycling at a low speed through the road bike with my partner when the wheel of his bike become stuck in the Tram tracks and he fell into the path of the tram which except of causing his injuries and pain it put his life in danger. On a research I made, there are a few incidents on the same spot of the road and nothing has changed, I would appreciate if you could do something for that. Thank you.	Contact:
