Hi Gavin,
Just so you know, our Active Travel Investment Programme is available to view [here](#) on the Council website and this is updated every 2-3 months.
We do have an ATInP scheme for Dundee Street/Fountainbridge but it's still in the fairly early stages of development. We expect to undertake public consultation on the concept design in spring next year. Rurighd is the Project Manager.
Construction is currently expected to commence in Jan 2025 and be completed in Jun 2026 but we may have to look at phasing implementation, due to potential interactions with emerging designs for the Lothian Road Boulevard project (i.e. constructing the western part of the route first, with the section nearest to Lothian Road to follow). If so, we would hope to provide a link between the Telfer Subway and the Union Canal towpath as part of the first phase. From the entry below though, it looks like this might be via Gibson Terrace rather than Viewforth.

Fountainbridge / Dundee Street	Telfer Subway connection to Gibson Terrace, as well as priority enhancements to the ETRO scheme currently in place.	Concept Design	Jan-25	Jun-26
--------------------------------	---	----------------	--------	--------

Hope this helps,
Andrew

Daisy/Andrew,

What are the timescales/future plans for additional active travel interventions on Dundee Street? Particularly around the High School.
Cheers
I work flexible hours. Although I have sent this email at a time convenient for me, I don't expect you to respond until it works for you.
