

63279 Clean Air Day UK 2026 Participation

What participation or events were promoted by the authority in any primary school in the authority area?

Two of our primary schools participated with the following:

- Clean Air Day and The Clean Air Project (Parents4Future) were promoted at our Sustainability communities of practice meeting.
- The Clean Air day was shared through our sustainability lead and as a result, there were some surveys, raising the profile and some sharing of information with parents/carers. Sustainability reps were keen to share the message.

What participation or events were organised by the authority in any primary school in the authority area?

None

What participation or events were promoted by the authority in any secondary school in the authority area?

None

What participation or events were organised by the authority in any secondary school in the authority area?

None
