

63490 Holyrood Park Fire

I am writing to inquire after the following issues:

1. What are the plans for the regeneration of the area following the fire?
2. If I wanted to set up a re-planting campaign (i.e. secure funding and recruit a group of volunteers to help 're-plant' the affected areas of the park and work towards implementing preventative measures), how would I do so?
3. Are there any existing re-planting campaigns or groups which you are aware of that I could join?

Holyrood Park is the responsibility of Historic Environment Scotland. We do not have any responsibility or involvement in the restoration work within the royal park. Similarly, we do not manage any community groups in the park. Information on our friends groups can be found on our website at:

<https://edinburghgreenspacesforum.wordpress.com/2024/05/25/map-of-friends-of-green-spaces-groups/>

The contact details for Historic Environment Scotland are published on their website at:
