

63661 Empty Homes Register

I'd like to request an updated list of properties on your empty homes register, or otherwise identified as long-term empty (6 months or more), including the property address and the approximate length of time each has been empty.

The Scottish Empty Homes Partnership (SEHP) has a National Matchmaker scheme which links owners of empty properties with people looking to purchase an empty home. The City of Edinburgh Council participates in this but does not have its own Matchmaker scheme. There are currently no properties in Edinburgh listed on the SEHP scheme.

Where there are details of properties recorded by The Council as long-term empty, these cannot be shared without the consent of the property owner as this is not permitted by GDPR legislation. These details are also withheld under Section 30(c) of FOISA.
