

63819 CGI IT UK Ltd payments with descriptions

I request a line-by-line list of the Council's payments to CGI IT UK Ltd, covering the period 1 April 2023 to date.

This is the same payment-level information already published in your over-£500 spend datasets, but with one addition: for each payment please include a description or narrative indicating what the payment was for.

For each payment, please provide:

Payment date.

Amount.

A description / narrative of the payment.

I would like to be able to differentiate between spend on technology and spend on services.

[This information is not centrally recorded, and for the Council to respond to your request it would require the creation of new information.](#)
