

63839

Request for the following information regarding the management of the council's highway structures (bridges, culverts, retaining walls, footbridges, subways, etc.):

Approximately how many structures are recorded within the system in total, and if held, broken down by type (e.g. bridges, culverts, retaining walls, footbridges, other)?

The number of structures held within the system in total is as follows:

Bridges	531
Culverts	81
Footbridges	231
Gantries	16
Retaining walls	1682
Small culverts	26
Tunnels	11
Underpasses	57

What software system(s) does the council currently use to record and manage its highway structures stock and associated inspections?

WDM

Who is the supplier of this system?

WDM Ltd.

What was the total amount paid to this supplier in the most recent financial year (2025/26 or 2024/25, whichever is available), broken down by licence/subscription fees?

The payment for 2026/27 period for the Structures Management software was £7304+VAT.
2025/26 was £7038 + VAT

What was the start date and duration of the current contract or subscription arrangement?

The license is renewed annually. We do not hold the date of the start of the contract but this has been in place for the last 10 years.
