Hi all,

We have the classes finalised now. We will share class lists at tomorrow's transition CAT.

So you are all aware:

- Communication with parents about class changes will go out on 18th June (same day as rest of school)
- This will be a letter with an explanation of the plan for P4/5 and a table which will include their child's name, their new teacher and their class - we will NOT be sharing full class lists
- SLT will be available to speak to any parents should there be any issues

Thanks,

Fi

Subject: Re: Classes for next year

Hi all,

I have updated classes again. This time I have left some of my highlighting - this is to show you who will continue to access inclusion support next session. Whilst I appreciate that these children will have some clashes - they are supported out of the class all morning so it is just the afternoon's that we need to make work [REDACTED] have tried to prioritise children and combo's of children who will be in class all day. Hope that makes sense. Can you have another look please.

Can we please meet on Thursday after school to confirm and I will share plan for communicating this with parents.

Subject: Classes for next year

Hi all,

You may or may not know that we will be creating a composite class of P4/5 for next session. I have made a start on splitting the classes. We are rejigging everyone for ease rather than only splitting one class. The composite will be made up of 18 P5's and 7 P4's.

Please can you look at the lists below and let me know your thoughts. Some decisions are according to ability whilst others are more tactical to help with individuals/ friendship issues etc. We'd of course like everyone to have friends in their new classes and I am not sure of all the P3 friendships.

There are also children who will continue to be in Inclusion Support classes all morning.

If you'd prefer to discuss any changes verbally, please come see me, might be easier than trying to type up any feedback.

Staffing has not yet been finalised.

Thanks,
Fi
