

63928

The contract, works order or call-off covering these works, including the contract value.

The contract was awarded following a mini-competition under the Roads and Transport Infrastructure Construction Framework Agreement 2022-2026. The contract value was £289,219.94.

The specification for the paving slabs and their installation, including bedding and construction requirements.

The precast concrete flags are to BS EN 1339:2003. Bedding and construction details are to Standard Drawing SD 11501 (attached).

The practical completion or completion certificate and the date the works were accepted as complete.

Please see attached (N006).

The applicable defects correction, defects liability or warranty period, including any relevant contractual terms.

The defect period for the footway renewal works on Dundas Street was 52 weeks. The form of contract used on this project was the NEC4 Engineering and Construction Contract (Option B). Within this contract a defect is defined as *any part of the works that is not in accordance with the scope or fails to comply with the applicable laws*.

Any snagging lists, defect reports or post-completion inspection records relating to the paving.

Please see attached (DN002).

Any records or correspondence since completion concerning cracked, broken or defective paving slabs within the reconstructed section of Dundas Street.

No records held.

Any records showing whether the contractor has been asked, or may be required, to rectify defective paving at its own cost.

No records held.
