Details of any lighting columns replaced as part of the Council's Energy Efficient Street Lighting Replacement Programme.

With the Council's Energy Efficient Street Lighting Programme covering replacement of the lanterns, none of the columns along Cumberland Street were replaced under the project.

Details of any current or planned street-lighting replacement or refurbishment works.

Although there are no firm dates for replacement of the streetlights in Cumberland Street, the columns that have been recorded as red will be replaced before they become structurally unstable.

The current footway condition assessment or score, and its priority or ranking for capital footway renewal.

A copy of the most recent assessment of the Cumberland Street footways is attached. They do not currently feature on the 3-year capital footway programme.

Details of any proposed or indicative footway reconstruction or renewal works for 2027/28 or later years.

There are currently no planned footway improvements to share.
