

63937 Issuance of Penalty Charge Notices

I'm searching for all operational guidance and material related to the issuance of penalty charge notices under the Road Traffic Act 1991.

Specifically, as to whether the council has a period of grace for issuing multiple penalty charge notices for the same continuous contravention.

Please refer to the Council's [Parking Enforcement Protocol](#).

Parking Attendants will not generally issue more than one Penalty Charge Notice to a vehicle within 24 hours, providing the vehicle has not moved and the parking restriction has not changed (such as where a peak-time restriction or loading ban takes effect).
