

64035

The number of sites within your authority's area that have been formally determined as 'contaminated land' under Part 2A of the Environmental Protection Act 1990, from 1 January 2017 to the date of this request, broken down year by year.

No sites within City of Edinburgh Council have been formally determined as “contaminated land”. Local Authorities need to keep a register of contaminated land. At present this register is empty as we have not found land that meets the legal definition of contaminated land. If we find any such land, we will place its details on our register. You will be able to view it at our offices and online.
