

64099

Accident: 27th July 2026 at approx. 8am.

Location: Gogar Roundabout, Edinburgh.

We would be obliged if you could advise us what the traffic lights sequence for that junction was at the time of this incident and whether there have been any changes to the sequencing since then.

Please also confirm if there are any known outages at the time of the accident in question.

Please find attached, the signals design drawing, which includes the traffic signal sequence. There have been no recent changes to this sequencing.

We have also attached a traffic signal fault report which we received on 27th July 2026. At 08:30 a report was received that the signals at Gogar Roundabout were in darkness due to a fault.

Checking the controller logs, the signals initially went off at 01:17 on 27th July 2026. With our engineer attending at 08:56 and bringing the signals back into operation at 09:30.
