Subject: St Mark's Path footbridge

Hi [REDACTED]

Do you know anything about closure of St Mark's footbridge (see below from the Edinburgh Minute)? Seemed to be yesterday. I can't zoom in on the photo as can't read the text on the plan.

Regards

[REDACTED]

St Marks Footbridge Closure - 'Barriers and signage have appeared at the McDonald Road and St Marks Park entrances to the St Marks footbridge. However, the public have moved the barriers and continue to use the bridge (as of 7pm on 23/06). The signage details maintenance faults.' - [Photo here, shared by a Minute reader.](#)

Afternoon [REDACTED],

No don't have a clue about it, My labourer mentioned something to me this morning but didn't quite know what he was talking about. Nothing to do with us though.

Best Regards,

[REDACTED]

Hi [REDACTED]

Thanks for confirming. I didn't think it was you.

Without wasting too much of your time can you see if the barriers still there and are they are either end of the path? Assume per the note below that people still using the path? If you get a chance would be grateful for photo of the closure if that gleans any more info.

Regards

[REDACTED]

Hi [REDACTED],

I haven't had a chance to walk up to the other end of the footpath. People are still using the path. Whatever it has been closed for it has definitely not stop the locals from this area getting through.

There are road works right out side the side too with temp traffic lights hard for deliveries getting it. We had no knowledge of this either which wasn't great.

I know we don't require to be informed but when we have an on-going site and that is our only access it would have been nice to have been informed.

Best Regards,

Hi [REDACTED]

Re the road works, these are Scottish Water valve works. Works are due for completion on 26 June. There is a contact name with the company doing the work I can give you if there are access issues.

Regards

Subject: St Marks footpath

Morning [REDACTED]

Is there any maintenance that gets carried out on St Marks footpath with weeds etc? We are tidying up our area in site and going to be trimming some branches, bushes, weeds etc so it does not go onto the footpath, There is a fair amount of weeds at the side of the footpath starting to over grow etc was not sure if there was anything in place for this?

The closure of the bridge do we have any understanding on what is going on with this? Is it closing? Is there a duration it could be closed for? I am going to look at works required in this area from the bridge to the crossing point onto site. Speak with Strain for durations also.

Best Regards,

[REDACTED]

Morning [REDACTED],

By the sounds of it the bridge is definitely closing and won't reopen until surveys, recommendations and remedial works are completed (closed for some time, duration tbc).

[REDACTED]

Thanks,

Morning [REDACTED]

Would be good to know plans and durations this would then allow us to try and make this work for all parties, without any backlash to CCG, ECC for the footpath being closed.

Hi [REDACTED]

I will share any timescale as soon as I know anything but everything is TBC at the moment. As Danny says however it does seem to me that it will be closed for some time with surveys and plan for repair or replacement to be determined.

Regards
