

64334 Building Developments

For the period 1st January 2020 to 31st December 2021, please can you provide me with:

How many building developments in your area have since stalled due to the developers going into administration?

The City of Edinburgh Council does not hold information on whether a developer has gone into administration. When a company goes into administration, it would be on public record at Companies House - <https://www.gov.uk/government/organisations/companies-house>

How many building developments in your area are still yet to be completed?

The term 'building developments' is generic as, in theory, it relates to every development within the city, however big or small and also every development type. The publicly available annual Housing Land Audit shows the status of housing developments within the city area over the time period asked. This is published at:

<https://www.edinburgh.gov.uk/development-activity-reports-1/housing-land-audit>

The Planning service does not record other forms of development so cannot identify relevant information relating to 'building developments'.

How many building developments in your area have had their long stop dates increased?

The term 'long-stop dates' is not recognised by our Planning service and as such, we are unable to identify such building developments.

If possible, under the FOI remit, please also provide the answers to questions 1), 2) and 3) for the period 1st January 2022 - 31st December 2023.

Please refer to the responses provided above.
