What area does your complaint relate to ? : road_travel_parking

If your comments relate to a council service for which you have an account then please provide an account number :

Short description of complaint : Can you please take much more consideration for the residents in the area before making decisions to close multiple roads at the same time.

Please provide the details of the complaint : Salamander street in general seems to constantly be impacted with road works. This is the second time in a period of months there was been significant disruption around bernard street. Current salamander street is congested from seafield to commercial street. Then you have closed Elbe street. And now additionally Duncan place is now closed. Never mind the amount of rounds around the area that have been changed to not allow cars (e.g bus gate at links and bus only drive up around the Shore). I'm not sure if there's an agenda to try deliberately annoy residents and make it near impossible to drive around carbon emissions. But you are significantly negatively impacting the ability for us to live our lives and travel to work without incredibly long delays. Not to mention the trams are now not ruining also. Unless there are immediate emergency dangers, surely things can be postponed so that multiple works are not complete at once? Additionally, in these circumstances, surely staff can be worked on overtime and more workers brought in to speeding up these processes of work?

How would you like us to deal with this? : Consider residents. Don't coordinate multiple road closures at the same time. Lower council tax bills if you are going to continuously ruin our daily lives.

Location: Salamander street and surrounding streets

Subject: Request for Street Nameplate Replacement and Parking Pole Removal – 2-4 Salamander Street

I am the owner of the Business located at [REDACTED] Salamander Street, EH6 7hr. I am currently organizing renovations for my shopfront and need to request the council's assistance with two fixtures on and directly outside my property, as shown in the original image

1. Salamander Street & Baltic street Nameplate

The existing street nameplate fixed to the building above my shop is worn and degraded. Since we are refreshing the storefront, I would like to officially request that the council replaces this plate with a new one. Additionally, I would like to ask if it is possible to relocate the plate slightly higher up the wall so that it sits cleanly above our shop's main fascia line.

2. Relocation/Removal of the Parking Permit Pole

There is a "Permit holders only" parking sign post positioned directly on the pavement in front of my right-hand. We are planning to utilize this section of the shopfront/wall for business advertising. The current position of this pole completely blocks the view of the storefront. I would like to request that the council removes this pole or relocates it slightly down the street so it no longer obstructs our commercial frontage.

Could you please advise on the process for these requests, any associated fees, and who the best point of contact will be to move this forward?

I have attached images of the storefront for your reference.

Kind regards,

[REDACTED]

Desc.: Literally the whole road
Report ID: 8969678
Category: Potholes
This whole stretch of road between seafield place as you turn left heading north, all the way along to Bernard street is littered with HUGE potholes. I don't have the time to take pictures of all of them but I'm sure you're more that aware that this stretch of road is shocking! The holes are usually unavoidable on most days as both sides of the road are extremely busy!

Location: I am writing to formally raise concerns regarding the condition of the road from Salamander street into Seafield Road. **Contact:**

The road is in poor condition throughout, with numerous potholes and sections where the tarmac is missing. In some areas, the damage is so severe that vehicles cannot pass safely without crossing into the opposing lane, creating a clear safety risk.

I would appreciate confirmation that this issue has been logged and information on any planned inspection or repair timescale.

Short description of complaint : Road in state if disrepair causing damage to vehicle

Please provide the details of the complaint : The stretch of road between Salamander Street and Seafield Road is riddled with potholes and a couple of dangerous dips. I travelled along on my Vespa scooter on Sunday, 31st August, avoiding potholes all along that stretch and dangerous dips the second of which caught me off guard causing my tyre to completely puncture. Thankfully I wasn't hurt just shaken and I had breakdown cover and now arranging to have my scooter fixed. This is a major route into Edinburgh but is not in a great state for cars and is extremely hazardous for bikes, scooters & motorbikes. I could have come off my bike and been seriously injured or killed. I am furious that the state of disrepair is causing me the inconvenience and cost of repairing my scooter. I was extremely careful but that did not prevent the dip in the road catching me out, causing damage to my Vespa and almost injuring me. My friend also had an issue on the the same stretch of road causing a puncture to her car tyre so this is clearly not an isolated incident. 1. Please look at working to repair this urgently before someone is seriously injured. 2. Please also advise what I need to do to claim for the cost of the repair to my Vespa as this is Edinburgh Councils responsibility. Thank you and I look forward to hearing from you.

How would you like us to deal with this? : 1.Compensate me for the cost of the repair 2. Repair the road to make it safe

Location: between Salamander Street and Seafield Road

Location: You really cant miss it. The whole road has been like this for at least 5 years and has got increasingly worse. It stretches from the shell petrol station to Dalton Scrap Yard, which is about 1/2 a mile. **Contact:**

This is in need of urgent resurfacing the whole road from 1 end to the other. Please dont patch it here and there. It needs fully repaired as it isnt safe to drive on as drivers are swerving around to avoid the pot holes and sunken surface and will cause an accident. Pictures dont do it justice

Location: The whole street is degrading to the point of causing damage to tyres on vehicles. Having returned from a 3000 mile road trip in 6 European countries, this stretch of road is by a country mile the worst. It's a busy road and frankly the condition is a city embarrassment. **Contact:**

Can you please fix this.

Service: Roads General **Subject:** Road: Defective / Damaged **Classification:** Request for service
Desc.:

Location: I have chosen the specific location on the map as this was a requirement on the form however, there are multiple defects along Salamander Street and Seafield Road. This is becoming very difficult and dangerous to navigate. They are primarily West bound. There are some potholes which are exceeding 80mm in depth. Last time I reported this, I received a notification to advise there were no actionable defects. Since then the road has deteriorated further and requires temporary repair work.
