

64777 Exposure to Asbestos – North British Distillery, Gorgie

Applications by the occupiers/owners of the North British Distillery located on Wheatfield Road, Edinburgh, EH11 2PX for the removal of the roof of the premises in or around the period 1993/94

Approval or warrants provided for the installation of large tankers at the above premises during the period in or around 1993

It is the previous Building (Scotland) Act 1959 that would have applied to the work referenced in your request. We may hold drawings at our [Building Standard Plan Store](#). Should you wish to view the records, the opening hours of the plan store are listed below. Access is currently by appointment only.

The records that may be relevant to you are:

North British distillery	demolition	89/4856	29/09/89
North British distillery	erect storage tanker	90/655	14/09/90
North British distillery	alteration	90/3028	06/07/90
North British distillery	alter stillroom	90/5869	15/03/91

Applications or warrants granted for the removal of asbestos containing materials within the roof the above premises

The removal of asbestos would not have required a building warrant; nonetheless, there may be information within the building warrants referenced above.

Demolition notices issued in respect of the removal of the roof at the above premises during this period

There may be information within the building warrants referenced above; however, due to the time that has elapsed, the information may be limited.

Any documentation or registers flagging the presence of asbestos within the roofs of the Distillery premises in or around 1993/94;

Matters relating to asbestos are part of the responsibility of the [Health and Safety Executive](#).
