64891 New and Improved Relief Data

Please provide a complete dataset dating back to 2018 to present for all business (non-residential) property rates for your local authority receiving New and Improved Relief, including the following fields (where possible):

- Ratepayer
- Property Address
- Post Code
- Assessor Reference Number
- Rateable Value
- Ratepayer Liability Start Date
- New and Improved Relief
- Relief Amount

Please see attached workbook with the information available.

The rateable value shown in the workbook is the one currently assigned to the relevant property, rather than the one which was in place when relief was awarded.

To distinguish between 100% Occupied New Build Bga Relief and 100% Improvements Bga Relief.

The former provides 100% relief for new business properties for 12 months after first occupation.

The latter provides 100% relief on the increase in rates payable for 12 months in respect of a new rateable value associated with certain property improvements.
