64944 Road Maintenance

Relating to report reference 102000351613, with our internal reference 2151106.

If the Council is maintaining that this defect does not require action, I would like to see the evidence and assessment supporting that decision. Please therefore provide:

The inspection report and photographs, if available.

The date and details of the inspection.

Please find inspection report attached.

The criteria used to determine that the defect was not actionable.

Please find inspection strategy attached.

The specific reason why it was classified as Category 4.

Officers are not required to record their reasons for selecting a particular category of likelihood and impact, only the result of this assessment.

Confirmation of whether it has actually been added to a programmed maintenance scheme and, if so, the expected timeframe for the works.

Repairs in Sciennes, at the junction with Sciennes Road, were completed on 24/09/26.
