65037 Report by Changeworks

I request the underlying data, methodologies, and reports behind the Mixed Tenure Improvement Service (MTIS) savings figures presented on 1 June 2026 at the Housing, Homelessness and Fair Work Committee. Specifically, I refer to the monitoring of 321 properties by the Council and Changeworks, which showed average annual savings of £53 on electricity and £623 on gas.

Please provide the following information:

The Evaluation Report: The final evaluation, summary, or briefing report produced by Changeworks regarding this 321-property monitoring exercise.

Please find attached The City of Edinburgh Council ABS 2023-24 Impact Report.pdf

The Methodology: Documentation detailing the calculations, assumptions, and statistical frameworks used to determine the kWh and financial (£) savings.

This Information is not held by The City of Edinburgh Council.

Anonymised Raw Dataset: The raw spreadsheet used to compile these statistics. To comply with data protection, please anonymise personal identifiers (names/exact addresses) but retain: general property location, building archetype, specific MTIS measures installed, and pre-/post-retrofit energy consumption (kWh) and bill costs (£).

This Information is not held by The City of Edinburgh Council.

Contractual Scope: The project brief, agreement, or data-sharing contract between the Council and Changeworks governing this specific evaluation.

Please find attached the following documents;

Housing Energy Projects Delivery Partner Framework Agreement 2021-2025.pdf
