65102 Unsafe Jewellery & Labubu Toys

Please could you provide the following information for the period 1 January 2025 to the date of this request:
Jewellery

The number of jewellery items found to be unsafe or non-compliant with product safety legislation.

None. This applies for the complete time frame.

Of these, the number found to contain excessive levels of cadmium, lead or nickel.

Not applicable.

Where readily available, please provide the type of jewellery, substance identified and action taken, such as seizure, destruction, recall or withdrawal from sale.

Not applicable.

Labubu toys

The number of counterfeit, imitation or 'Labubu-style' toys identified or seized.

160 – all in the calendar year 2025

Of these, the number found to be unsafe or non-compliant with product safety legislation.

All products were found to be non-compliant in relation to labelling requirements.

Where readily available, please provide the safety issue identified and action taken, such as seizure, destruction, recall or withdrawal from sale.

Contravening labelling requirements. All products were withdrawn from sale, signed over for destruction.
