Steel"s Place crossing improvement proposal.pdf

Dear all,

We would like to inform you of proposed changes to the pavement and road layout of Steel's Place at Morningside Road. We will be promoting the proposed changes under the Improved Process for Implementation of Traffic Calming Measures and at this stage we would like to seek feedback on the proposals from you or your organisation should you wish to provide it.

Please find attached details of the proposals, with the main changes being:

- The introduction of a continuous footway on Steel's Place at Morningside Road.
- The renewal and upgrading of the Morningside Road pelican crossing near Steel's Place to a puffin crossing.

Should you or your organisation wish to provide feedback on the proposals if you can please do so by **Friday 12 June 2026** that would be greatly appreciated. This will allow us time to consider suggestions and make any necessary adjustments in advance of the designs being finalised and works commencing later this financial year. Please do not hesitate to get in touch should you have any queries on the proposals.

Kind regards,
