Morningside Road pavement improvement proposal.pdf

Dear all,

As part of ongoing Council programmes to deliver improvements for people using our pavements and roads, we would like to make you aware of proposals to improve the road and pavement layout on Morningside Road between Falcon Avenue and Falcon Road West. The proposal has been developed to deliver improvements and an equity of provision for all pavement users, with the proposed layout enhancing the current temporary measures and the previous permanent layout.

Please find the draft proposal attached with a high-level summary of the changes below:

- Widened footway on the western side of Morningside Road from Cuddy Lane to The Merlin access to provide an equity of provision for all pavement users.
- Renewal and widening of the existing busy pedestrian crossing.
- New pavement crossovers at Cuddy Lane and The Merlin access to remove trip hazards and provide an equity of provision.
- Renewal of defected raised table/crossing on Falcon Avenue at Morningside Road to remove trip hazards.
- Extension to the Morningside Place bus stop to aid bus movements and traffic flow at this bus stop.
- Adjustment to the marked parking and loading provisions, with the necessary removal of one pay and display parking bay within the scheme extents.
- Street clutter removal and rationalisation where possible.

Due the nature of the proposal, changes to the current Traffic Regulation Order would be required to deliver the proposal as presented. Therefore, once we have considered initial feedback received and made any reasonable adjustments, we will advertise a new order at the earliest opportunity which will provide a further opportunity to submit feedback.

Subject to approvals, funding availability and the outcomes of the ongoing work to prioritise the City Mobility Plan Capital Investment Programme, we anticipate that the final proposal will be delivered during financial year 2025/26.

Once you have had a chance to review the proposal we would welcome any comment or feedback that you or your organisation have at this stage. Please do not hesitate to contact me for any clarification or additional details.

Kind regards,
